PERFORMANCE REVIEW INSTITUTE

Preserving Cell Phone Data in Litigation

 Atlanta, GA (address provided after RSVPing)
 June 26, 2025 | 2-4pm

Join legal and forensics professionals inside our former bank vault-turned-secure facility — protected by 18" concrete walls, biometric access, razor wire perimeter, and ISO 27001 certification — to learn:

Why Attend?

- Tips for writing effective preservation notices
- Real-world examples of forensic mobile data extractions
- Common pitfalls to avoid in mobile data spoliation
- Innovations in on-site data preservation and processing

CLE Details:

- **1 CLE Credit (Pending)**
- Hosted by legal and digital forensics experts from S2|DATA

Key Topics Include:

- Ethical obligations under ABA Rules 1.1, 1.6 & 3.4
- What plaintiff and defense counsel must preserve (and why)
- Chain of custody, defensibility, and downstream data review
- Secure vault archiving that reinforces integrity and reduces risk
- Live walkthrough of our digital evidence infrastructure

See Where Data Is Protected

You'll tour S2|DATA's **High Availability Vaults** — steel-and-concrete, Mosler-secured former bank facilities where digital truth is physically protected. **Turn theory into action** and walk away with practical knowledge you can use in your next case.
